

Pet Food Bank Resource List

All animals deserve to be free from hunger and thirst by ready access to fresh water and a diet to maintain full health and vigor. However, we know that life is full of ups and downs, and we all suffer from periods of financial hardship from time to time.

We want to ensure that those who find themselves in need of assistance know where and how to access it. We have put together this resource list of pet food banks in the GTA and beyond to help support those who need that little bit of extra help to keep their pets happy and healthy.

Toronto Humane Society doesn't endorse one of the below programs over another, and this list is by no means exhaustive. If you don't find a food bank listed in your area below, we suggest reaching out to your local shelter or animals services to discuss what support might be available in your region. It's a good idea to call or email before you visit any of the locations below as some of these organization may require you to register or may have pet food and supplies available only on specific days.

Pet Food Banks in the GTA
