Finding Hazel a Loving Home in Vancouver

We first encountered Hazel, an endearing pit bull mix, on July 21st when a kind-hearted individual discovered her tied up in Toronto's Moss Park area after enduring several hours under the sun. While not initially the biggest fan of other dogs, Hazel displayed an exceptional affinity for people. Thus began the adoption mission to secure an out-of-province home for her.

After just under two months of dedicated efforts, we successfully found Hazel a wonderful home in Vancouver. Thanks to the assistance of a benevolent driver—yes, a driver—she embarked on her journey from our care to her new destination. We're delighted to share that Hazel has seamlessly integrated into her new home and has formed an unbreakable bond with the adopter's resident dog!

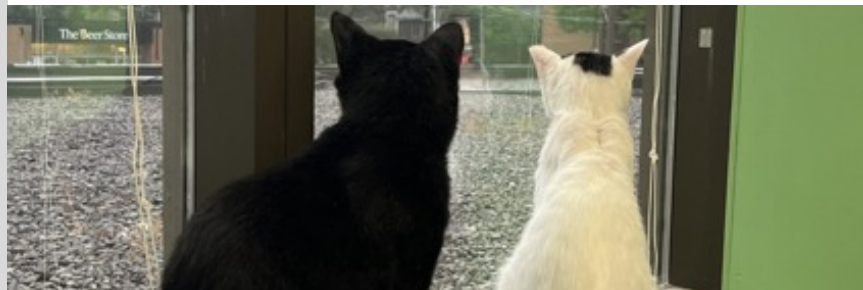

Bonding Two Cats to Improve Their Welfare

Kachow and Canoe forged a strong bond during their stay with us and found their forever home together on July 13, 2023. Despite arriving at our shelter independently, both cats exhibited elevated fear and anxiety levels upon admission.

During his time in our care, Kachow received medical attention for Horner's syndrome and a chronic ear irritation, while Canoe underwent intervention for a URI (Upper Respiratory Infection). Recognizing their need for extra care, both cats benefitted from the expertise of our Shelter Training Team.

Under the guidance of feline trainer Shannen, it became evident that the companionship of each other would greatly enhance their well-being. The introduction of Kachow and Canoe proved to be a transformative experience, significantly improving their overall happiness. Today, Kachow and Canoe are thriving in their forever home, a testament to the power of companionship and the compassionate care they received during their time with us.

Three Dogs Find their Forever Homes in Celebration of International Dog Day

In celebration of International Dog Day this year, we initiated a campaign with the goal of finding new homes for 7 of our long-stay dogs. These remarkable canines had spent anywhere from two months to three years under our care, be that in a loving foster home or at the shelter. The campaign yielded significant success, resulting in the heartwarming adoption of two long-stay dogs, Ladybird and Hades.

Additionally, a reunion miracle unfolded as Blaze, a dog who had arrived as a stray, was joyously reunited with his family. Beyond these heartening outcomes, the campaign also generated adoption interest in other animals within our care, fostering hope for their future homes.
