Q1 Impact Report

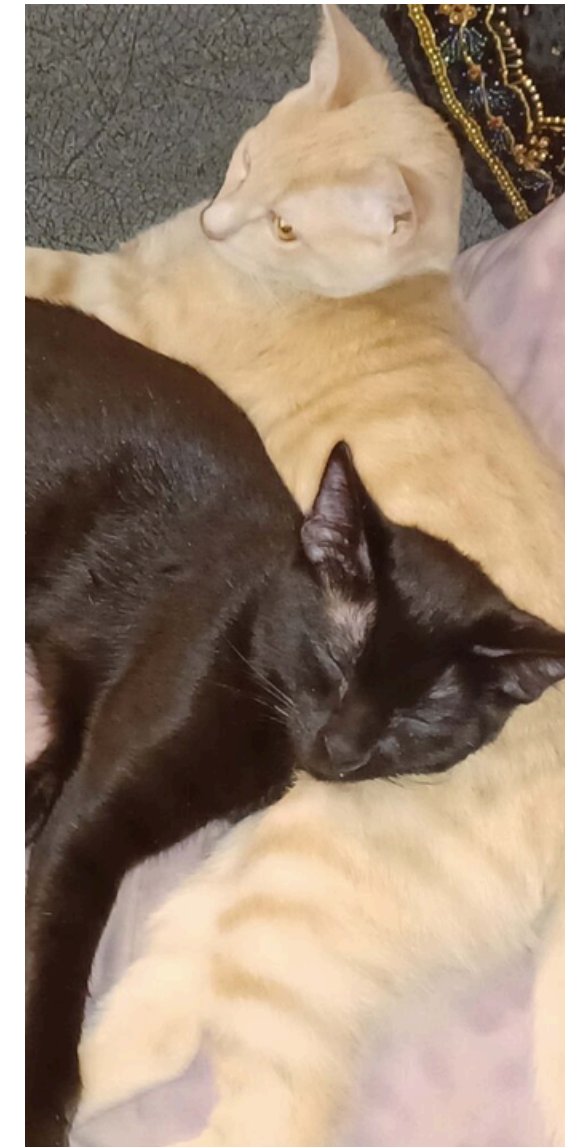

Ross and Max: A Tale of Healing and Gratitude

Ross arrived at Toronto Humane Society on January 17th, distraught because his dog Max had been hit by a car near their home and was limping. With nowhere else to turn, we accommodated Ross the next day. Max underwent neutering and received treatment for his wounds.

Ross, a user of our Pet Food Bank service, returned to express his gratitude for our assistance with Max. Now fully healed, Max has thrived post-neuter. Ross enthusiastically recommends neutering to everyone he knows, noting the remarkable improvement in Max's overall well-being. With his wounds healed, Max is now a happy and healthy companion.

"I am on ODSP and without your affordable services I wouldn't be able to have the cats that keep me emotionally stabilized, and who are my best friends. They make my life worth living, and without your help, I couldn't have them with me at all without undue smell and noise from the consequences of unaltered cats. Pasha saw you yesterday and Purrsy will be there tomorrow, and my older cat, Pixie, came to be spayed there about 11 years ago. You have made all our lives better! Thanks for treating my babies so well."
- Heather, T

Overcoming a Foreign Body with Help

Prince, a playful 16-week-old Scottish Fold kitten, faced a diagnosis of a foreign body that required surgery. Jama, unable to afford the procedure, turned to the Toronto Humane Society for assistance. Thanks to our swift action, we scheduled Prince for surgery the next day.

Following successful surgery, Prince is recovering well post-op, on track to return to his silly antics soon.

1,717

Surgeries
Performed

1,717

Wellness and Preventative
Service Appointments
Provided

557

Public Subsidized Wellness
Appointments Provided

The below market rate value for the subsidies appointments is over **\$42,260**.

These appointments include microchipping, flea and tick preventatives, vaccinations, euthanasia, and Heartworm prophylaxis.

303

Public Subsidized Surgeries Performed

This includes approximately **\$35,700** worth of below market rate services.

Subsidy funding helps make essential veterinary care more affordable, which in turns helps more pet parents in our community care for their pets and keep more families together.

272

TNR Surgeries Provided

Our Trap Neuter Return (TNR) program, ensures that community cats are given support to improve their wellness so they can live whole and healthy lives. This service is provided free of charge to caretakers.

"I was anxious and worried before I arrived for Freya to be spayed. Well that was completely unnecessary as they treated her and I so amazing that all my fears were unfounded. I'm so grateful. As someone of low income, the discount was a blessing. Also your pet food bank programs are outstanding and so so needed. Thanks so much for making the process an excellent experience."
- Lisa, T.
